

## **Description: Resource Mobilization**

### **Department of Nuclear Sciences and Applications**

- Conduct background research to develop a list of foundations with potential interest in providing resources for the IAEA's Renovation of the IAEA Nuclear Applications Laboratories (ReNuAL) Project and prioritize for further contact.
- Develop, in collaboration with the ReNuAL resource mobilization team, detailed profiles on philosophy, giving strategy, decision making process, past donations and current interest for the major public and private foundations.
- Assist with the preparation of specific funding/donor proposals, preparations and follow-up on resource mobilization related meetings, and with other relevant tasks as needed, i.e. contribute to briefing materials, take notes in meetings, etc.

Desired educational background of candidates:

- Management
- Business Administration
- Economics
- Finance
- Public Administration
- International Relations

This internship will be based part-time at the IAEA's Laboratories in Seibersdorf, Austria and part-time at IAEA Headquarters in Vienna.
